

THE SHEPHERD.

Give the sheep a chance to walk around some every day.

Be sure there are no narrow doors for the ewes to crowd through. One ewe may cause the loss of a lamb at both ewe and lamb.

Sheep graze the richest manner on the farm. Keep it under cover and save every bit of it, for it is a valuable asset.

Worrying spoils a sheep, and it can be noted in lack of thrift. Noise and confusion will so disturb a flock that they will not thrive.

Sheep should have access to clean water at all times. Remove the water line every day. A sheep will object to straw and chaff, etc., in the drinking water.
